

DREAM to DESTINATION Course

Delivery Options

We know how busy teachers and support staff in schools are.

Therefore, in order to make the delivery of this course as user friendly as possible, we have included lesson plans with timings and a ready-made Powerpoint presentation for all 12 chapters in our gold package for you. Therefore, you can deliver it without the need to complete any preparation in advance. It is up to you as the professional how and when you deliver the course but we have 3 options that we recommend.

Option 1: during form or assembly time **(20 minutes)**

For those of you planning on using this course with form groups or small groups during registration time or assembly time we have put together condensed 20-minute lesson plans for you for each chapter.

Option 2: during a scheduled lesson, e.g. PSHE **(50 minutes)**

For those of you planning on using this for small intervention groups or whole classes during a scheduled lesson time we have put together 50-minute lesson plans for you for each chapter.

Option 3: during a one-off intervention or extra curricular day **(whole day)**

For those of you planning on completing the whole course over an intensive but rewarding intervention day then we have a proposed schedule that will see your students cover the entire course in just 5 hours. You can download this plan by subscribing to our Gold Package and clicking on the 'Course in a day' page.
